

COURTS IN YUMA COUNTY INFORMATION TECHNOLOGY STRATEGIC PLAN 2014-2016 SUMMARY

LOCAL INITIATIVES, DRIVERS, AND PRESSURES

- Improve case processing using workflow, performance measures, and automated ticklers; continue to digitize entire court environment.
- Increase qualified interpreter services and public information sources for family law.
- Maintain business continuity by ensuring essential court services continue during extraordinary circumstances; replicate key systems offsite.
- Relocate Justice Court #1; establish new superior court division.
- Make better use of websites for public services and to communicate court information.
- Update and expand scope and use of courtroom audio/video recording.
- Address computing hardware and software falling out of support.

CY 2011/12 ACCOMPLISHMENTS

- Implemented digitization programs in limited jurisdiction courts including document imaging and e-citation.
- Implemented Infax docket display system throughout Yuma Justice Center.
- Began multiyear audio/video recording software upgrade effort at superior court.
- Adopted AZTurboCourt forms in justice courts.
- Converted microfilm/microfiche to digital documents in Clerk's Office.
- Remodeled Adult Probation lobby and office space.

STATEWIDE PROJECTS: IMPACTS, CONCERNS, AND PARTICIPATION PLANS

LJ CMS	Need support for digital input processes already in place; concern for accessibility of AJACS case information to JAU; will be an early to mid-cycle adopter, depending on individual LJ court.
JOLTSaz	Adult Probation requests access to data for presentence reports; Clerk's Office requests direct import of juvenile case records into AJACS upon case initiation; no adoption preference given.
LJ EDMS	Cost, scanner capacity, and conversion concerns, but anxious to get shelf space freed; early to mid-cycle adopter, depending on individual court.
e-Filing/Std Forms	Probation desires access to e-filings. concern for additional workload and cost brought on by adoption; will be early to late adopter depending on individual court.
Bench Auto	Generally positive impression of the initiative; desire to get to paperless court operations; will be early to mid-cycle adopter depending on individual court
Architecture	Projects exist to address operating systems and productivity software items in retirement status, not developing new apps locally.

YUM-1: Citywide Electronic Document Management / Imaging	FY15		X		Yuma Municipal Court
YUM-2: Electronic Citations	FY15		X		Yuma Municipal Court

Note 1:

An "X" in "Full" indicates that the court has provided full detailed information about the project according to the general parameters outlined in the Commission on Technology's Project Management Methodology. Also, risk analysis, impact, project costs and funding information has been provided.

Note 2:

An "X" in "Skeletal" indicates that the court provided detail about the local project in the master projects listing spreadsheet. Complete information, usually risks, impact analysis, project costs and funding, was not provided.

Note 3:

An "X" in "Mention" indicates that the court mentioned this project in a summary or listed it in an initiative. It may have been a phrase or a full paragraph of description, but did not contain detailed project-oriented information. If these projects are related to pursuing standards or directions already adopted (e.g., OnBase EDMS implementation, Jury+ upgrade, digital audio in the courtroom), then any mention which includes appropriate funding information is sufficient.
